Sort order for Favorite Files:

1) Manual (preferred) defaulting to
2) Alphabetical or
3) Most recently modified (by me or anyone)

These are maps most recently opened or modified by me, ordered by most recent on top.

Filters for Projects:

- All
- At-risk
- Projects with Active Tasks
- Projects with Tasks Due Today
- Projects with Tasks Assigned to Me
- Projects Created by Me

Views for Projects:

- Tiles
- Timelines
- List

On mouse-over, labels are shown.

Visual design notes:

- Reconsider symbol for activity

Project Tile navigation:

→ 1. Clicking on different areas of the Project Tile navigates the user to the relevant displays in Tasks or the Library:

- Tasks Due** and **Active Tasks** all navigate to the “tasks” tab of the associated Task List
- Files** navigates to the Library view for this Project
- Members** navigates to the Sharing dialog showing members already in this project
- Activities** navigates to the “history” tab of the associated Task List.

Consider changing “history” to “activities” in Tasks

2. Once a Project Detail Page is implemented, clicking any part of a Project Tile navigates the user to the (new) Project Detail page for that project.

Sort order for Favorite Files:
1) Manual (preferred) defaulting to
2) Alphabetical or
3) Most recently modified (by me or anyone)

These are maps most recently
opened or modified by me,
ordered by most recent on top.

The screenshot shows the Mindjet ProjectDirector Home interface. At the top is a navigation bar with 'Home', 'Tasks', 'Library', and 'Contacts'. The main area is divided into several sections: 'My Tasks +', 'Favorite Files', 'Recent Maps', 'Projects +', and 'Activity Stream'. The 'Projects +' section displays four project tiles: 'On-schedule Project', 'Project Name' (highlighted in yellow), and 'At-risk Project' (highlighted in red). Each tile shows counts for 'Tasks Due Today', 'Files', 'Active Tasks', 'Members', and 'Activities'. Annotations include: a callout for 'Sort order for Favorite Files' pointing to the 'Favorite Files' section; a callout for 'Sort' pointing to the 'Sort' button in the 'Projects +' section; a callout for 'Filters for Projects:' pointing to the filter dropdown in the 'Recent Maps' section; a callout for 'Views for Projects:' pointing to the view dropdown in the 'Projects +' section; and a callout for 'On mouse-over, labels are shown.' pointing to the project tiles. A large yellow callout at the bottom provides 'Project Tile navigation' instructions.
